

SAFEGUARDING THE END OF THE RAINBOW

Why do so few older LGBTI people plan for their future, what will happen if they are in need of care or what will happen after they die?

Is this because of a lack of awareness of the range of options that are available to protect themselves and their families of choice? Or do negative experiences with lawyers and GPs form the bigger barrier?

Safeguarding the End of the Rainbow – a dynamic panel event presented by COTA Victoria and Transgender Victoria for **Law Week 2017** – explores all the issues and identifies the options which support LGBTI people to safeguard their future.

Panellists will also consider what skills and knowledge professionals need to effectively support this key Victorian community to age well and die with dignity.

If you are a member of the LGBTI community, work in the area or are just interested in the issues, come and hear from these experts:

MC:

- **Ro Allen**, Victorian Commissioner for Gender and Sexuality
